THIS Company has been formed for the purpose of acquiring from the CHINA COAST STRAM NAVIGATION COMPANY, of Shangbai, and Sailing Ships honce to Victoria, Port. the YANGTSEE STEAMER COMPANY, of Shangbai, and from Messrs. JARDINE, MATHESON & Co. the Steamers specified in the Schedule attsobed hereto, together with the business of running Steamers on the Coast and Rivers of China, and between China, the Straits Settle-

ments, and Calcutta. The Directors believe such a consolidation of the various interests represented, and the making provision, by adding Steamers to the presout fleet for meeting the growing requirements of a rapidly developing traffic in the Eastern seas, will render the business of the Company a remunerative investment.

The Nine Steamers of the CHINA COAST TSZE STEAMER COMPANY; as specified in the annexed schedule, have been valued by Mr. J. J. [341 | TUCKER, Lleyd's Surveyor at Shanghai, and by dr. C. J. Bouron, Surveyor to the Cauton and other Insurance Offices, at £140,000, to which £15,000 have been added for expense of delivering in China, £15,000 for the actual cost of hulks, ferry-bests, and other appliances at Chinkiang, Kiukiang, and Hunkow, and the minor stations on the river Yangtsze, together with £30,000, or a premium of 20.40 per. Cent. for the entire business and its connections, making a total of £220,000 the sum ageed upon with the Vendors, and of which amount it is arranged that they take £180,000 in fully paid up shares

of the Company. The new Steamer "Seewo" will be taken over Performance. at a valuation of £26,000, the "Fooksang" at £32,500, and the "Posang" at £34,000. The CHINA COAST STEAM NAVIGATION COMPANY was established in 1872 to unite shipping interests connected with North China, and has been successful in devel ping an important carrying trade between Forchow and Shanghai,

and between Swatow and Shanghai, Chefoo, Tientsin, and Newchwang, on which lines six steamers are employed. The Yangusze Steamer Company have three Steamers plying on the river between Shanghai and Hankow, and have halks, boats, and every

necessary facility provided at the various ports | starting at 9.30 P.M. of call for prompt and efficient service in conducting a large carrying and passenger traffic. The Steamers are new, the "Taiwo" having been launched as recently as last May, and they have been designed to meet the special requirements of Chinese passengers and the native carrying trade.

The "Seewo" is a new Steamer of 1,406 tons. built at Aberdean and despatched to China in February last, where she will shortly be joined by the "Focksang," of 1,35, tons, the building of which has just been completed at Aberdeen; and by the "Possing," of about the same tonnage, now approaching completion at Glasgow. These boats have been specially built for the more Southern Coast Trade that has Hongkong for its centre, and in connection with which the Vendors have already attained an important

The China and Calcutta branch of the Company'e Service will take the place of the Steamers (their own or chartered) which Mesers JARDINE, MATHESON & Co. bave run for upwards of twenty-six years, and which have carried the Optional Cargo will be forwarded on to Yoke- mails between Chiua, the Straits Settlements, hama unless notice to the centrary be given and India. This line is a valuable one, and is considered of growing importance, owing to the increasing passenger traffic and trade of Chipa with the Straits Settlements and India. It is. proposed to build two large and powerful Steamors, specially adapted to this branch of the trade, to take the place of the Chartered Vessels [345 at present employed in the service, and the Directors expect that to accomplish this, and to make the desirable additions to the Coast and River Services, an outlay of £185,000 will be amply sufficient. -

Tho carnings of the CHINA COAST STEAM NA-VIGATION COMPANY'S fleet during late years, the results obtained by Chartered Steamers on the lines so provided with tonnage, and the working of the Yangteze River Service, show good realised profits, and it may confidently be anticipated with the substitution of European Vessels for will be landed and stored at Consigners' risk | the native Junk that is taking place on the Coust of China, and the general expansion of the carrying Trade in the Eastern Sens, and on the Rivers of China, that the Company will find [359 ample scope for profitable enterprise. The business, though still capable of great development, has the benefit of being a going concern, and above Port on IUESDAY, the 28th instant, at notice service is proceeding on all the lines in- 5 P.M. CONSIGNEES of the following Cargo are dicated, bringing in a revenue out of which the O' requested to send in their Bills of Lading Directors reasonably expect profits to pay divito the undersigned for countersignature, and dends, besides forming a Reserve Fund for debeen entered into by or on behalf of the Com-

YOKOHAMA.

TROM OUR OWN CORRESPONDENT 11th February. For some time past the Shanghai newspapers have been trying to make out that serious trouble is brewing between China and Japan. First on account of the supposed illegal attitude assumed by this country over the Loc-choo islands. Secondly because Cores is reported to have applied to China for assistance to drive the few. Japanese traders (who have sattled there) out of the country; and, finally, to allay the burning desire for revenge which still lingers in the. Celestial mind-regarding the Formosa difficulty. The sentiments expressed in the China papers are, no doubt, made on the strength of the advices received from the unlimited number of correspondents there appears to be both in Tientsin and Peking and It can hardly be wondered at that they (the correspondents) occasionally invent items of intelligence which have no foundation in fact. This has certainly been the case recently, for I have it on the authority of His Excellency be Minister for Foreign Affairs at Tokio that the present relations saisting between China and Japan have never been on a firmer footing, or more amicable than they are now, and the rumours of any probable rupture between the two countries (as reported in the foreign press) have no foundation whatever save in the imagination of the writers themselves. It is cortainly true there have been many discussions between the two dations regarding their respective claims on the Loochoes, but Japan having so fully established her right to protect the interests of those islands to the satisfaction of the Chinese Government, the latter acknowledged the same by withdrawing from further pressingthe matter. As to Corea's appeal for help to oust the Japanese settlers from that countryand who reside there under Treaty rights-it is very unlikely such a request was over made, and even if it has been, it is absurd to suppose for a moment that China would entertain a proposal of the kind for any such purpose. If China is anxious for war it is to be hoped also will have a better cause to fight for than the Formesa squabble. This omentry has always been willing to conceds anything within reason, and would, I feel sure, avert -- even at considerable sacrifice-all chance of war, as such a calamity would simply ruin any nation having neither:

The revision of the Treaty has been now going on for some little time past, and the various Foreign and Native Ministers meet every Thursday and Friday afternoons to discuss the changes that are to be made. Sir Harry Parkes, however as Deven of the Foreign Diplomatic Corps. attends daily at the Foreign Office on the same subject, and by the end of May it is expected the new Tariff Convention will be completed, although it is not likely to take effect until next year. So far everything has been agrand to on both sides almost without a murmur, but it is too much to expect this satisfactory feeling will prevail throughout the whole revision, especially where foreigners are so much at variance with Japanese notions. In Sir Harry, however, everybody feels satisfied regarding the ultimate issue of events, and even the pative press allows that He bis influence and knowledge in taking a chief part in revising the Treaty law can but be pro-

According to a native journal Japan is to have another visit from Sir James Bain during the present mouth. The object of this gentleman is to enquire into the actual condition of trade in this country, and, as the Anthorities have ordered preparations to be made for his reception. it would appear that he comes as a guest of the local Government.

On Monday last (the 6th instant) a deputation, consisting of Messrs. J. P. Mollison, A. Wilkin, John Walter and six others (tiritish); Mr. A. O. Gay (Americ n) Mr. A. Wolff German); waited on Sir Harry Parkes, K.O.B., G.C.M.G., Her Britannic Majosty's Minister in Japan, at the British Legation, Tokio, to present an address of welcome from British and Foreign residents, on the return of His Excellency to resume his former post as the representative of Great Britain in this Empire. After Mr. Mollison had read the Address. Sir Harry replied as follows :---

"Gentlemen, I thank you cordially for the address you have been so good as to present me on the part of many of my countrymen, and also of other foreign residents in this country. with whom I have had the pleasure of being long associated.

We all know the value of a hearty welcome. and I should possess less than ordinary sensibility if I failed to appreciate the one which you have given me, combining, as it does, approval. of my public proceedings with the expression "of warm personal regard, and of deep sympathy my private affliction.

"I am aware that an address of this character is mainly due to the circumstances of the lengthened period of my residence among you, and to the identity of interest and feeling which so happily unites the various sections of our foreion community. It is very gratifying to me "to be greeted by you as an old member of that community, and to find that you autertain such kindly recollection of the part I have taken in promoting, according to my opportunities, its public and social welfare.

The mulevolent accusations to which you allade will soon. I trust, be forgotten. As personal attacks they have fallen barmless; bpt in common with yourselves, I regretted their occurrence, because they were calculated, in inexperienced minds; to occasion national estrangements, and to excite susceptibilities which all right-feeling men should make it their endeavour to dispel

"In resuming my duties, I am animated chief-Lip by the hope that I may be able to do some. "further service to your interests, and. I trust "I may add without presumption, to those o "the country in which we live.

"Those interests, whether foreign or native, "are so intimately bound up together that they "admit of no real antagonism, and the advancement of the one must depend upon the prosperity of the other. I am not unmindful that in striving to realise the above named "objects I may fall short of your expect-"ations and of my own wishes, but I shall trust "to you to support me, as you have hitherto done, in evil report as well as in good, and to believe that no effort shall be wanting on my part, both to merit the continuation of your toufidence, and to strengthen our friendship; "and extend our commerce with this interesting and progressive nation." The address was beautifully illuminated on
